## Summary

---

I'm about to graduate with a strong passion for software engineering, looking for opportunities to grow and make a difference. I'm motivated, resilient, and work well in team settings, especially under pressure. I enjoy solving problems and I'm always eager to learn new things. My goal is to keep improving and to create innovative solutions to real-world problems.

## Technical Skills

---

**Languages:** Java, Kotlin, Javascript, C#, Object-Oriented Programming (OOP).

**Technologies:** Spring Boot, Android SDK, React.js, ASP.NET.

**Tools:** Git, Docker, Visual Studio Code, IntelliJ IDEA

**Databases:** SQL, MySQL.

**Operating System:** Basic Linux (Ubuntu).

**Soft Skills:** Problem Solving, Teamwork, Communication, Time Management, Adaptability.

## Projects

---

**Clinic Management System API** | *Spring web, Spring Security, JWT, Swagger, Docker, MySql.*  
Spring Framework for RESTful API Development in a Clinic Management System with Docker Deployment

 [Source Code](#)

- Authentication and Authorization using Spring Security and JWT.
- Implement CRUD operations with validation, pagination integration, and exception handling for optimization.
- Develop appointment scheduling with nurse schedule verification feature.
- Utilize Swagger for API Documentation.
- Dockerize deployment.

**Technology Sales Project Manager** | *Spring web, Spring Security, MySql, Thymeleaf.*  
Spring and Thymeleaf Application for Managing Digital Sales.

 [Source Code](#)

- Authentication and Authorization using Spring Security.
- Perform CRUD operations with validation and pagination integration for optimization.
- Integrate MySQL for data storage and leverage Thymeleaf to craft a user-friendly interface for the system.

**The Ultimate Sales Command Center** | *React, Redux, Sass.*  
React-based Tech Product Sales Management System.

 [Source Code](#)

- CRUD Operations for Product, User, and Category.
- Search Functionality for Products by Name and Category.
- Infinite Scrolling with Pagination.

**SmartTraffic** | *Kotlin, Firebase, Android SDK.*

Kotlin Application for Real-Time Navigation and Traffic Monitoring.

 [Source Code](#)

- Implemented user-friendly real-time traffic visualization on maps.
- Developed system for real-time traffic updates and user reporting.
- Implemented location search and direction feature.

## Language Skills

---

**Vietnamese:** Native speaker.

**English:** Proficient in listening, reading documents, and basic communication.

## Education

---

**HCMC Open University**

*Bachelor of Information Technology*

2020 - 2024

Ho Chi Minh City
